

Dynamical Systems

Location: SU, Kräftriket, Building 5, room no. 22

- **Friday, March 18**

14:00 – 14:40 Alexander Bufetov, Quasi-symmetries of determinantal point processes.

14:45 – 15:25 Danijela Damjanovic, On global rigidity for smooth minimal \mathbb{R}^k actions with constant cohomology on tori and nilmanifolds

Coffee break

16:00 – 16:40 Tuomas Sahlsten, Stability and perturbations of countable Markov maps

16:45 – 17:25 Maria Saprykina, Instability of degenerate elliptic equilibria in Hamiltonian dynamics

- **Saturday, March 19**

14:00 – 14:40 Viviane Baladi, Linear response for intermittent maps

14:45 – 15:25 Kristian Bjerklöv, On perturbations of skew-shifts on \mathbb{T}^2

Coffee break

16:00 – 16:40 Fredrik Ekström, Fourier dimension of random images
