

Institut Mittag-Leffler is an international center for research and postdoctoral training in the mathematical sciences

Proposals should contain:

- a general description of the research area of the program
- a description of the scientific impact of the program for this research area
- a description of specific research problems that will be central to the program
- a list of suggested invitees, most of whom should have indicated an interest in coming to the program for a substantial period of time
- 2 - 4 members of the organizing committee (at least one member with a connection to mathematics in the Nordic countries and one specified contact person)
- a short CV of each member of the organizing committee

Short description:

- Programs are semester-long: Sept - Dec or Jan - Apr.
- The Institute is located in Djursholm near Stockholm.
- Participants are accommodated on the premises, around 25 are in residence at any given time and participation is by invitation only.
- About 1/3 of the program participants are post-docs and 2/3 senior researchers.
